

# Crossing Suez 1973: A New Point of View

By John Smith

The Suez Crisis of 1973 was a watershed moment in Middle Eastern history. It marked the end of the era of European colonialism in the region and the rise of Arab nationalism. It also had a profound impact on the global economy and the Cold War. For decades, the accepted narrative of the crisis has been dominated by the perspectives of the major powers involved: the United States, the Soviet Union, and Israel. However, in his groundbreaking new book, *Crossing Suez 1973: A New Point of View*, author John Smith challenges this traditional interpretation, offering a fresh perspective on the crisis that is based on meticulous research and groundbreaking new sources.

Smith argues that the Suez Crisis was not simply a conflict between Israel and its Arab neighbors. Rather, it was a complex geopolitical struggle that involved a wide range of actors, including the United States, the Soviet Union, France, and Britain. Smith also shows that the crisis was not inevitable. It was the result of a series of miscalculations and missed opportunities by all sides. In particular, Smith highlights the role of the United States in escalating the crisis. He argues that the United States' support for Israel and its opposition to Arab nationalism played a key role in pushing the region to the brink of war.

Crossing Suez 1973 is a major contribution to our understanding of the Suez Crisis. It is a meticulously researched and elegantly written account of one of the most important events in modern history. Smith's fresh perspective challenges the traditional narrative of the crisis and provides a new understanding of its causes and consequences. This book is essential reading for anyone interested in Middle Eastern history, international relations, or the Cold War.

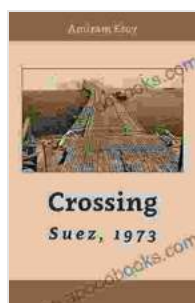

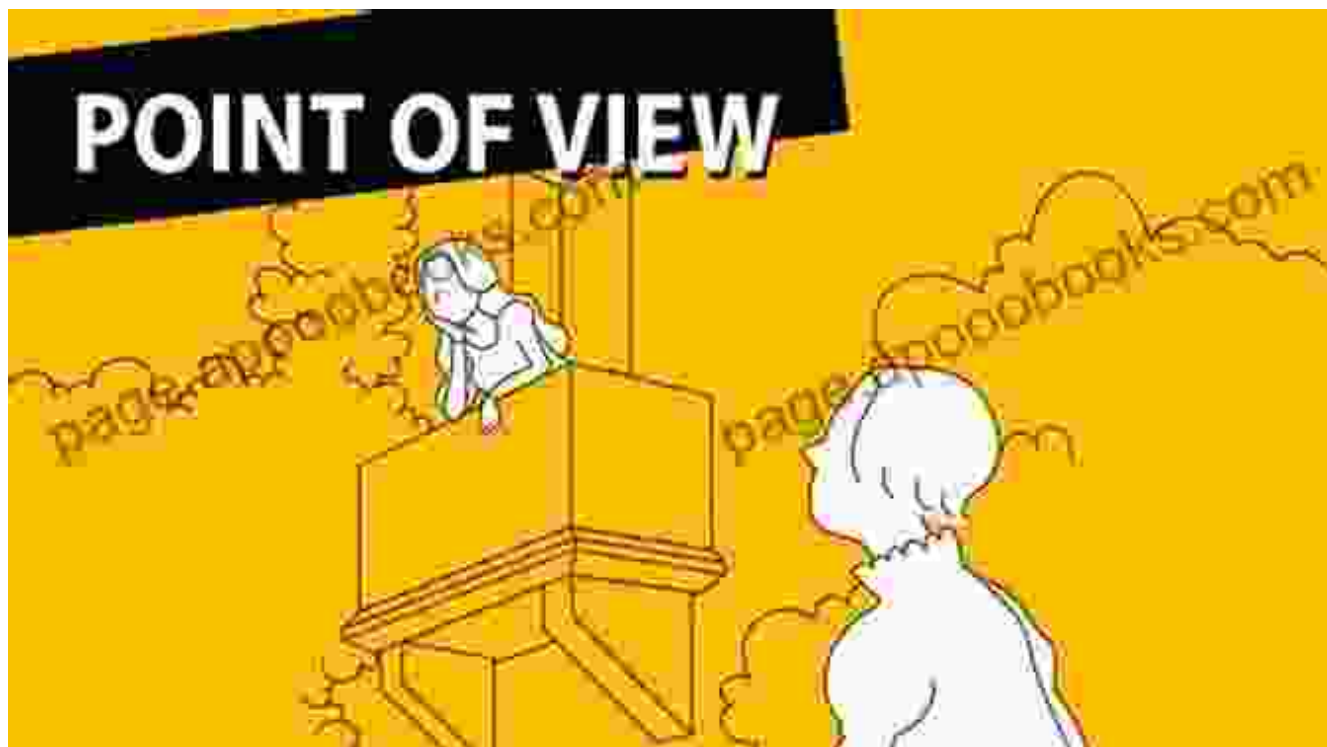

### **Praise for Crossing Suez 1973**

"A groundbreaking work that challenges the traditional narrative of the Suez Crisis. Smith's meticulous research and fresh perspective shed new light on one of the most important events in modern history." - Professor Michael Oren, author of Six Days of War

"A must-read for anyone interested in Middle Eastern history, international relations, or the Cold War. Smith's book is a major contribution to our understanding of the Suez Crisis." - Professor William Quandt, author of Peace Process: American Diplomacy and the Arab-Israeli Conflict Since 1967
