The Justice Department under the leadership of Jeff Sessions and Rod Rosenstein was a willing participant in the deep state coup attempt against President Trump. This book tells the full story of how the DOJ tried to frame Trump for collusion with Russia, and how Trump fought back to save himself and his presidency.

Solomon, a Pulitzer Prize-winning investigative journalist, has conducted extensive interviews with key players in the Trump-Russia investigation, including former Attorney General Jeff Sessions, former Deputy Attorney

General Rod Rosenstein, former FBI Director James Comey, and former Special Counsel Robert Mueller. He has also reviewed thousands of pages of documents, including internal FBI and DOJ memos, emails, and text messages.

The book reveals that the DOJ was determined to find evidence of collusion between Trump and Russia, even if it meant ignoring or fabricating evidence. For example, the FBI relied on the Steele dossier, a salacious and unverified document compiled by a former British intelligence officer, to obtain a warrant to spy on Trump campaign associate Carter Page. The DOJ also ignored evidence that contradicted the collusion narrative, such as the fact that Trump's campaign had no contacts with Russian intelligence during the 2016 election.

Trump fought back against the DOJ's attempts to undermine him. He fired Comey, appointed Mueller as special counsel, and declassified documents that showed the DOJ's misconduct. In the end, Mueller's investigation found no evidence of collusion between Trump and Russia. However, the DOJ's actions left a lasting stain on Trump's presidency and on the reputation of the Justice Department.

This book is a must-read for anyone who wants to understand the full story of the Trump-Russia investigation. It is a shocking and disturbing tale of political corruption and abuse of power.
