India is poised to become a global superpower in the 2024s.

India is the world's largest democracy and the second most populous country. It has a rapidly growing economy and a young and dynamic population. India is also a major player in regional and global affairs.

In the 2024s, India is expected to become the world's third largest economy. It will also be a major player in the global energy market. India's strategic location in the Indian Ocean gives it a key role in regional security.

However, India faces a number of challenges in its quest to become a global superpower. These challenges include poverty, inequality, and environmental degradation.

Rule Taker to Rule Maker provides a roadmap for India to achieve its goal of becoming a global superpower. The book argues that India must focus on the following five priorities:

1. Economic growth
2. Social development
3. Environmental sustainability
4. Regional security
5. Global leadership

Rule Taker to Rule Maker is a must-read for anyone who wants to understand India's rise in the 2024s.

About the Author

Manjeet Kripalani is a senior fellow at the Gateway House think tank in Mumbai. He is the author of several books on India's foreign policy, including India's China Challenge and India's Global Power.

Reviews
