The Role of Elites and Masses

Lind places particular emphasis on the relationship between elites and masses in the exercise of power. Lind argues that the world is witnessing a shift in the balance of power, with the United States facing increasing competition from China, Russia, and other emerging economies.

Towards the end of the book, Lind speculates on the future of power in the 21st century. He discusses the potential impact of technology, globalization, and demographic changes on the distribution and exercise of power.
